Antioch Township Tax Valuation 30 Million, Assessor John P. Miller Reveals; Increase Is \$1,450,000 Over Last Year's \$28,560,772

16,000 Descriptions Listed on Tax Book Most of Increase Found in New Homes and House Repairs in Area

Antioch Township, largest township in Lake County, will be a tax valuation of approximately \$30,000,000 for next year's collection, John P. Miller, assessor announced Tuesday as he began the closing of his books for the last time.

He will turn over his duties to the newly elected successor, Anthony J. Scully, soon.

The new figure represents an increase of \$1,259,254, which with the multiplication factor required by state law, will up the amount to approximately \$1,450,000.

Last year's total figure was \$28,560,772 and the increase, as can be seen, will approach the \$30,000,000 mark.

Of the 16,000 total number of descriptions (all accounts are referred to as descriptions whether real estate or personal property) 3,550 were on personal property. There were 12,424 descriptions for real estate.

Assessor Miller said that he followed up 630 building permits, which were either for new homes or repairs in accounting for much of the increased valuation.

"Most of the increase was on new residential property," Assessor Miller said. "Not a single commercial building was erected this year."

Miller said that he is gathering additional data as to assessed valuation for the Antioch Township High School district and will have it available next Thursday for publication or for use at the public meeting that the high school board is planning.

"For instance, increased valuation upped the tax income for the high school from \$269,000 in 1955 to \$325,000 in 1956. The coming year will see further increase."

Salem School Opening

Central High School, Salem, Wis., announced today that school will open Sept. 3, with all freshmen coming that day. All students from the 10th through 12th grades will not return until the fifth.

Principal A. H. Erickson announced that the school's lunch room would begin operating immediately. The incidental fee for textbooks, lockers, etc., will be \$5 per student which is payable immediately upon school opening.

Attends Lie Detector School—Deputy Sheriff Charles Larson took time out from his vacation with his family at Hot Springs, Ark., last week to attend the ninth annual convention and seminar of the Academy for Scientific Interrogation. Larson is a polygraph expert, that is, he can operate a lie detector, and the seminar was on operation of these machines. He took his six-week course at the Keeler school in Chicago.

On Labor Day

It was in May, 1882, that one Peter J. McGuire, president of an organization of carpenters and joiners in New York, conceived the idea that one day out of the year ought to be set aside "in honor of labor."

Mr. McGuire contended that our country had holidays representative of the religious, civil and military spirit, but none "representative of the industrial spirit, the great vital force of the nation." He proposed that a "Labor Day" should be observed on the first Monday in September, since the date fell about half way between Independence Day and Thanksgiving Day.

So it came into being, and gradually over the years it became a legal holiday which is now observed in all our states.

Labor and management, employee and employer—in fact, all of us free Americans—join on Labor Day to pay tribute to "the industrial spirit, the great vital force of the nation." We respect the cooperation between honest, dedicated and responsible leadership in the American system which has made us the most progressive, most powerful and most prosperous nation on earth. All of us—regardless of our work or status in life—enjoy its fruits, in the highest standard of living the world ever has known.

Ground Breaking for New Baptist Church Near Lake Villa Set for 2:30 p.m. Sunday

Construction of a beautiful new building of Lakeland Baptist Church is expected to begin the first week in September. Final details are speedily being completed.

Dr. W. Alfred Diman, Executive Secretary of the Chicago Baptist Association will bring greetings from the association to the new church at the ground-breaking ceremony, 2:30 p. m. Sunday, Sept. 1. The Rev. Dale Van Hovel, pastor, will conduct the service which will include messages from Chicago Area Baptist churches as well as other churches and organizations in the Lake Villa area.

The building, designed by architect Robert C. Taylor and Donald M. West of Oak Park, Ill., and Genoa City, Wis., is planned as the first unit of a three unit development of a complete church plant. The initial unit will contain a sanctuary seating approximately 200, and will include a church office, nursery and crib room on the first floor. The full basement, which takes advantage of the hillside site to provide a maximum of daylighting, will contain space for Sunday School facilities, a fellowship hall, a kitchen, and toilets. Construction will be of face brick, lightweight concrete block, precast concrete panels, and laminated wood arches. The cost of the building together with its furnishings will be about \$60,000.

Education Unit Next—Provision has been made for expansion of the educational facilities as the second unit and a large sanctuary as the final unit. Upon completion of the development, the first unit will serve as a chapel.

The new church serves the entire Chain of Lakes area for the American Baptist Convention. The ten acre site is located on Rte. 132, approximately two miles west of Lake Villa.

Mr. Van Hovel, who resides at 795 N. Main st., recently returned from Green Lake, Wis., where the American Baptist Assn., holding its church extension program, voted to add the local church financially. The plans submitted by the architects before the assembly, won unanimous approval, and their ideas were appreciated by representatives of Baptist churches from Maine to California, the pastor said. He said it was the only new church that had a 10-acre site.

Fall Round-up Rally To Recruit Boy Scouts Planned For Sept. 14

Scheduling of a Fall Round-up Rally for Sept. 14 to bring more boys in the Antioch area into the Scouting movement was announced today by Harry Jesse, assistant Northwest District commissioner for Antioch and nearby communities.

Purpose of the rally, Jesse explained, is to put Scouting and Scout craft on display in some central area in the community throughout the day to encourage more boys and their parents to participate in this year's Scouting program.

Details of the round-up rally, Jesse said, have not been completed (continued on page 12)

Labor Day Will End Vacations at Resorts, Trek is Back to City

Shunneson Said Resorts Had Good Business Despite Weather

Antioch area resorts are hoping for warm and clear weather over the weekend and Labor Day to provide metropolitan residents the type of enjoyment they will need as the vacation season ends and they take the children back to the city for school.

"It has been a good season despite the poor weather over weekends," said A. W. Shunneson, resort owner, and president of the Resort Owners Assn. "Had there been more favorable weather we couldn't have handled the crowds."

Shunneson said that the booth at the Sports Show in Chicago introduced the area to vacationers and brought people out who had never heard of the Chain of Lakes.

Added to that was the incentive of the fishing derby.

Oscar and Fannie, the \$1,000 and \$500 prize fish were never caught, but a blue-tagged northern pike put out by the Fox Brewing Co. in its Fox Fishathon was caught last Sunday by Mrs. Marion Manes of 23 W. 110th St., Chicago, and she received an aluminum row boat, a trailer and a motor, with a total value approximating \$1,000.

She caught the fish at Channel Lake with a Flipit, a spoonlike lure. While families will trek back to the city, the sports fisherman will begin his fall week-end fishing trips because he knows that the fish bite better in cooler weather. After that will come the hunting season, and then ice fishing.

Two Properties Sold

George Hawkins has sold his residence at 601 N. Main st. where he ran a hatchery, and Mrs. Hawkins and her mother, Mrs. Grace Welch conducted Grace's Antique and Resale shop. Don Andersen of 344 Park ave., who conducts the Ideal Repair shop, was the purchaser.

The Andersens sold their property to Joe Pechulis of Beach Grove road, who opened a radiator service and welding shop at the Park ave. address.

Mrs. Welch is living at 634 N. Main st., where she has her shop, and the Hawkins temporarily are living in the home of Mrs. Charles Meyer, 633 N. Main st., while their home in Brook's subdivision on Lake Antioch is being completed.

Saturday is Deadline for Paying Taxes To Township Collector--Office Abolished

Saturday is the deadline for paying real estate and personal property tax to Township Collector John L. Horan at the Antioch State bank.

On that day Horan will close his books and end his service as collector, for the township collector office in Lake county has been abolished. He has served the township as collector for 16 years, using both Antioch banks as his places of collection.

"From my many years of experience, in dealing with the people and their taxes, I find that the public has an awful lot to learn about village, township, and county administrative business relative to taxes, which keep administrative bodies functioning properly," said Horan.

To provide money for the payrolls at the opening of school and making unnecessary anticipation warrants, Collector Horan recently turned over \$80,000 to the school treasurer. The money perhaps will

High School Classes Report At Different Hours On Wednesday

Antioch area children are putting in their last few days at play while mothers get their clothing ready for the return of the youngsters to school which will open next week.

Increased enrollments are expected in most of the schools except perhaps, St. Peter's Catholic Grade school where many of the pupils will transfer to the new Prince of Peace parish school at Lake Villa which will open with an enrollment estimated at 200 or more. This same school will have its effect on the enrollment of the Lake Villa Grade school, which should show very little increase, if any.

High School Reports Wednesday
Antioch Township High School pupils are to report to the high school next Wednesday to pay for textbooks and to receive general information, Principal Albert Dittman has announced.

Students will report to the girls' gymnasium in accordance with the following time schedule:

Freshmen—8 to 10 a. m.; sophomores—10 to 11:30 a. m.; juniors—1 to 2 p. m.; and seniors—2 to 3 p. m.

The textbook rental system used for the past few years at the local high school will again be used. The rental system eliminates the purchase of books and reduces the cost to the people by about one-third. (continued on page 12)

Antioch Rescue Squad Had Many Night Calls

The past week was one of the busiest for the Antioch Rescue squad and nearly all calls came late at night.

Most of the aid proved beneficial, but in the case of Mr. Tudor, a 75-year-old summer resident of Linden Lane, Channel Lake, he suffered a ruptured heart and died enroute to Victory Memorial hospital Sunday night. The body was taken to Chicago for burial.

It was necessary for the Rescue Squad members to raise an automobile with a jack to free the driver, William Kruse, 22, Des Plaines, when the car got out of control going west on Grass Lake road 2 miles west of Rte. 59 Sunday night and rolled over on its wheels, pinning Kruse underneath. He was taken to Victory Memorial hospital suffering from a right leg injury and face cut.

The squad was called to the John L. Penn summer residence on the north side of Leona Lake Tuesday morning where it gave oxygen to Mr. Penn, who suffered an attack of indigestion which affected his heart. He recovered and is up and about at his home today.

Harry (Casey) Birdwin, 83, a houseman at the Paulsen estate at Channel Lake, suffered a heart attack and was given oxygen and taken to Victory Memorial hospital for care.

Mrs. Ida Osmond of Orchard st. suffered an attack of indigestion which rendered her unconscious Tuesday night. She was taken by ambulance by the squad to St. Therese hospital where she recovered.

Are We Good Citizens?

This second annual National Civil Defense Week serves the vital purpose of stressing the need for personal and governmental disaster preparedness. The threat of natural disaster is always with us. The threat of enemy nuclear attack is as much with us today as it was a year ago.

The necessity, therefore, for individual knowledge of self-help practices which might save your life and the lives of your families, is obvious. The need for governments on all levels—to survive and operate effectively under extreme emergency conditions still remains very much with us.

Let us, therefore, this National Civil Defense Week (Sept. 15-21, 1957) resolve to individually and collectively support our governmental civil defense authorities to the fullest extent. Can we, as good citizens, do less?

Washington Has Taken Over

Publisher Tom Anderson of Farm & Ranch magazine points out that "In 1914 state and local governments spent 70 per cent of all money spent by government. Now 70 per cent is spent by Washington bureaucrats." Then, to make a bad matter worse, "A big part of our tax money never comes back to us in services—but is lived up by the swarms of bureaucrats whose hands it goes through."

President Eisenhower has proposed that the states assume responsibility, in whole or in part, for many projects now handled on the federal level. If the states will do that, the taxpayers will find that they will get more and better service—and for less money.

Price-Making and Wage-Making

Dr. Edwin G. Nourse, chairman of the Council of Economic Advisers during President Truman's administration, recently testified on the problem of price inflation before a Senate investigating body. He made statements that cannot logically be contradicted.

He said that "the processes of price-making and of wage-making are so intertwined in the modern world that neither can be effectively analyzed in isolation from the other." He then said that labor unions should be subject to the anti-trust laws, exactly as are business and industrial organizations.

The public is entitled to the protection of the law against all monopolies—not just one kind.

No Stranger

A record tonnage of U. S. coal is going abroad these days. And it's interesting to note that our coal is no stranger in world markets. Almost a century ago Pocahontas coal from West Virginia gained international recognition. Now coal from many seams in many states enters export trade.

Last year these coal exports showed a 29 per cent gain over 1956—a substantially larger percentage increase than for foreign trade as a whole. And it is expected that the foreign appetite for American coal will show another jump this year.

The reason for this appetite has various facets. For one, there has been a tremendous industrial resurgence in West Germany and elsewhere, with a corresponding rise in demand for energy fuels. For another, coal production in England, with her socialized industry, has been pretty much in the doldrums—where once she was the world's foremost coal exporter, she is now a net importer. For still

another, the American coal industry—a competitive private enterprise industry—has been extremely successful in improving the quality of coal, and in tailoring the product to fit different needs.

The sum of it all is that American coal is an important element in building up the resources, living standards, and economic health of the free world.

Grass Roots Opinion

KANSAS CITY, KAN., PRESS: "It is common sense that there must be a limit to the upward price spiral, else a loaf of bread will demand a wheel barrow of currency as it did in Germany after World War I."

CANTON, PA., INDEPENDENT-SENTINEL: "To all those students graduating from either high school or college... we say, without qualification, that the United States is still the land of opportunity. It is true that taxes are higher than they were a few decades ago, but it is also true that jobs are more plentiful, and earning power much greater."

ROSEBURG, ORE., NEWS-REVIEW: "The Hell's Canyon project has become an exceptionally good political propaganda vehicle... This issue has been played out of all proportion to its economic factors... Although the differences between the proposed construction plans are of comparatively minor importance, the project puts the principles of public and private power in direct opposition to one another..."

OLYMPIA, WASH., DAILY OLYMPIAN: "News of an influenza epidemic sweeping the Far East formerly would have caused grave apprehension on this side of the Pacific, for infectious diseases are no respecters of geographical boundaries. Health authorities, however, believe there is no cause for alarm in the U. S."

"One reason is to be found in the magnificent advances of medical science and research."

CATSKILL, N. Y., ENTERPRISE: "Statistics are working in favor of older employees in industry and the premise that they are less productive is being continually disproved. The Industrial Bulletin, published by the New York State Dept. of Labor, opines that 'output man-hours show little significant variation among age groups.' The magazine gives figures to show that older workers have a better attendance record than younger employees and that older workers have fewer accidents on the job. Hiring older workers is good sound business practice. Their experience gained through the years is indispensable."

HARMONY, MINN., NEWS: "To train children at home, it's necessary for both the parents and children to spend some time there."

LAKE CITY, IOWA, GRAPHIC: "The federal government owns billions of dollars worth of... businesses that are not paying any taxes. It takes our tax dollars to keep them operating. These should be sold and applied to our public debt... Six to ten billions in taxes could be saved in this manner."

LINDSBORG, KAN., NEWS-RECORD: "Anza Amen Lema, whose home is in Tanganyika, East Africa... is attending Bethany College. Lema told me that one of the greatest problems in his country was to make his people believe that a government could be operated the way ours is, in the United States. That is, that everyone can take a stand on government operation, can vote for the individuals, in our free elections, can criticize our governmental operations if they are not in agreement with what our law-makers are doing. These things, he stated, are difficult to get across to his people and it is his belief that our government is going to have to make a definite effort to get these things across to the peoples of many foreign countries if we are to halt the spread of Communism."

NORWALK, CONN., HOUR: "In 1887, the first federal regulatory agency in this country was set up with the establishment of the Interstate Commerce Commission to regulate the railroads. In the 70 years since... there are... no fewer than 115 lesser bodies with authority to make rules and regulations, investigate complaints and judge the findings. They are rightly called quasi-judicial agencies... It is now the personification of big government."

BE ALERT!
YOUR CHILDREN ARE GOING

Back to School

**DRIVE
CAREFULLY!**

**School Time Is Safe Driving Time - -
The Child You Save May Be Your Own!**

STOP and WAIT when school busses are taking on or discharging passengers.

KEEP ALERT for children walking to school in the city or on country roads.

More and more children are on the streets again — some of them going to school for the first time. Children will be crossing the streets, walking along country roads, waiting for school busses. Children are sometimes unpredictable, and it is up to drivers to stay alert and in full command of their vehicles in case an emergency arises. PLEASE drive extra carefully. Watch for children at crossings and on the streets. Give the right of way to school buses. Be alert. The children may not see you — be sure you see them!

FOLLOW THESE RULES FOR SAFE DRIVING

- Be doubly careful near schools or where children play. Children don't realize the danger and may take chances. That's why you, the driver, must take extra care.
- Keep your car in top mechanical condition. Use chains when roads are slippery.
- Obey traffic laws. Know the traffic laws wherever you travel and don't break them.
- Slow down. Speed is dangerous at any time—doubly dangerous when visibility is cut by rain, fog, or darkness.
- If you drive, don't drink — if you drink, don't drive. Remember, death takes no holiday.
- Keep lights and windshield wipers in good condition during rainy or snowy weather. You have to see danger to avoid it.
- Be a courteous driver. Yield right-of-way, even when it should be yours. It's better to stay alive than to be dead right.

GIVE RIGHT-OF-WAY to children at cross-walks. Be sure they arrive safely.

Holy Name Society At Lake Villa Plans Appreciation Party

In conjunction with the Holy Name Society monthly meeting Sept. 9, there will be an appreciation party for all the workers who helped make the first Prince of Peace parish festival on August 3 and 4, a successful event. Tax Facts

The Taxpayers' Federation of Illinois today called attention to the careful consideration given school legislation by the members of the last General Assembly. School bills comprised 11 per cent of the total bills.

Of all bills introduced, 56.7 per cent passed and 51 per cent became law. School bills had greater success, both in passing the Senate and House, in that 72 per cent of them passed and 68 per cent became law.

"It would be extremely difficult to prove how great a per cent of successful legislation is the result of compromise," said Maurice W. Scott, Executive Secretary, "but legislative processes call for compromise and no one person or group can expect to dictate the final form of a bill."

Scott cited House Bill 706 as a case in point: This bill authorized elementary school districts to levy for education purposes 65¢ per \$100 equalized assessed valuation without referendum, a potential local tax increase for the State as a whole of \$1 million. It also increased referendum rights from \$1.25 to \$1.40 per \$100 for education purposes for such districts.

In its original form, H. B. 706 allowed 12-grade districts to increase their taxing power \$13½ million without referendum. The Taxpayers' Federation sponsored amendments preventing any tax increases without referendum. Attempts were made to amend this bill to call for direct referenda for both elementary and 12-grade district tax increases. A very close vote in the House defeated the 12-grade direct referendum and the Senate defeated the elementary district referendum amendment. Partial success was achieved in that a final conference committee from both houses agreed to amendments whereby 12-grade districts could increase their education tax rates to \$1.25 and building rates to 25¢ per \$100, subject to referendum if the voters petition for one.

"Taxpayers can be grateful to their organization for the amendments which protect their interests," Scott concluded.

Dr. Haqq to Address Women of Lake Villa C. Methodist Church

Dr. Akbar Abdul-Haqq of India will be the featured speaker at the monthly meeting of the Women's Society of the Lake Villa Community Methodist Church on Tuesday, Sept. 3.

The Methodist magazine "Togetherness" recently described Dr. Haqq as an "Unusual Methodist" and writes this about him: "Back in his native India, Dr. Akbar Abdul-Haqq and his loved ones are shunned by close relatives because his father, a Muslim priest, became a Christian evangelist."

As a child, Dr. Haqq learned what it means to be a follower of Christ: the only Christian in a school class of 60, he was asked repeatedly why he followed our religion—which forced him to think deeply about his faith. Joining the Methodist Church in Southern Asia in 1947, he subsequently was granted a Crusade (Methodist) Scholarship for study in the U. S., took his Ph.D. at Northwestern. Now, as president of Henry Martyn School of Islamics, he guides young Christians as they study Mohammedanism in preparation for seeking converts from its ranks. In 1956 he accepted a bid to act as interpreter for Billy Graham when the evangelist visited India, proved so successful that he came to the U. S. as the only non-Briton, non-American on Graham's team. His aim now: to spearhead Graham-type crusades throughout Asia.

A personal friend of Dr. Haqq's who is a member of the Lake Villa Church, Mrs. Thomas Alfredson, will lead the devotions for the women and introduce the speaker. The meeting will begin at 12 noon, with a dessert luncheon served by Mrs. Vern Blust and Mrs. Alvin Pegg, hostesses. All women in the area are invited to hear this outstanding churchman.

The choir program of the Lake Villa church is getting under way with four choirs preparing for regular appearances at worship services. Under the direction of Mrs. Richard

Bolt and Mrs. Gerald Robinson, with Miss Susan Romer and Mrs. Albert Renahan as organists, the choirs rehearse at the following times:
High School Choir—Wednesday at 7 p. m.
Adult Choir—Thursday at 7:30.
Junior Choir—Friday at 3:15.
Cherub Choir—Saturday at 10 a. m.

Anyone who enjoys singing is invited to join the choir in his age group.

A Mrs. at Lake Villa Would Become a Miss In Waukegan Contest

A Lake Villa mother, Mrs. Carol Bartlett, 23, of Grand Ave., has announced her candidacy for the title of Miss Waukegan Aviation.

Mrs. Bartlett did modeling work in Alton, Ill., before coming here three years ago.

Her husband, Fred, is a carpenter for a Round Lake construction firm. They have a 5-year-old daughter, Carla.

Mrs. Bartlett also works as a bookkeeper at Johnson Motors, Waukegan.

She has green eyes, red hair, is 5 feet 2 inches tall, and has freckles.

Her aviation experience includes commercial flights between St. Louis and the West Coast.

Hobbies are bowling and dancing.

The Miss Waukegan Aviation contest is sponsored by Waukegan Airport, to stimulate interest in flying, in connection with Waukegan becoming a world port.

Ballots for selecting the girl who will become Miss Waukegan Aviation may be obtained at the Lake Villa Pharmacy, as well as from merchants in Waukegan.

Miss Waukegan Aviation will be crowned at an Aviation Ball in Waukegan, Oct. 27.

Two other area girls, Donna Andersen, Lake Villa, and Ora Lee, Antioch, are also among the contestants.

Girls who sell tickets for air tours of Lake county, taking off daily from Waukegan Airport, receive extra votes in the contest, according to Wayne K. Carpenter, airport manager.

Refreshments will be served.

Mr. and Mrs. Lawrence Sterling and son, Bob, and Mr. Everett Sterling were Sunday guests at the home of Mr. and Mrs. Lowell Graves and family.

Congratulations to Mr. and Mrs. Frank DuMelle on the birth of a baby boy. Waiting at home to see the new arrival are a sister, Claudine and a brother, Phillip.

The Lindenhurst Sportsman club had its annual picnic Sunday, Aug. 25. There were races, games and refreshments. They also had a horseshoe tournament, winners were Eugene Baker and Marvin Schultz.

Our deepest sympathy is extended to Mrs. Ann Fitzgerald because of the recent death of her mother in Joliet, Ill.

The Pinochle club met at the home of Mrs. Zenia Neumann last week. Refreshments were served and enjoyed by all.

Remember! The Lindenhurst Men's Club picnic will be held Sunday, Sept. 1 at noon on the club grounds. Be sure to attend.

Mr. and Mrs. Elvis F. Erkman of Carmi, Illinois, returned home recently after spending several days with their sister, Mrs. H. B. Gaston and other relatives in Antioch. Mrs. Gaston accompanied them home and visited with her mother and father, Mr. and Mrs. Martin Erkman.

Misses Deedie and Mary Tiffany returned home recently after several weeks spent at their cottage on Lake Superior, at Copper Harbor, Michigan.

Mr. and Mrs. Wendell Nelson and Mr. and Mrs. Ed Rinnfeldt returned home Saturday after spending two weeks vacationing at Hazelhurst, Wis.

Village Board Adopts \$39,950 Tax Levy; Put Money on interest

The village board Tuesday evening passed a levy ordinance totaling \$39,950.

Village Atty. E. C. Jacobs said it is slightly higher than last year but that more money will be coming as the result of increased property valuation.

The board has sought to offset this by placing much of the village money on interest for the revenue would derive.

All bills are scrutinized for savings and contracts are let to the lowest bidder.

Old equipment is wearing out and must be replaced, however.

Trustee Edmund Vos was instructed to install a new door at the Scout house.

The board approved a two-day day for the Retarded Children's Education Assn., but opposition was cast by Trustee Bernard Amundson and E. H. Glenn. Glenn said he opposed two days on any campaign regardless of the merit of the appeal.

A used duplicator will be purchased from Norman Jedele for \$75. He will donate 50 pounds of paper. The clerk will make copies of his minutes for study by the trustees, and will do other duplicate work with it.

Clerk Clarence Shultis was granted a two-week vacation from Sept. 8 to 28 inclusive and the village office will be closed during that time.

The board will study Shultis' suggestion that the office be closed on Saturday afternoons instead of Wednesday afternoon. He said that there is very little business on Saturday, but many people try the door on Wednesdays.

The board will retire William Heilmann, street employee, after November 1. He is eligible for retirement pay and veteran's pension. He has been ill and badly crippled so that he cannot handle the assigned job.

Illinois State News

Illinois Ranks First

Illinois ranks first in the nation in the numbers of deaths and second in amount of property damage from tornadoes, according to a report from the Illinois State Water Survey, Department of Registration and Education.

Nine hundred and fourteen deaths and approximately \$48,705,680 in property damage from 1916-1950 was caused by a total of 184 tornadoes. Tornadoes in Illinois have been particularly destructive because of the density of population.

Rainfall which accompanies tornadoes in Illinois may be heavy, but generally lasts only a short time, according to meteorologists.

Recruit State Police

The Illinois state highway police will continue their recruiting drive at the DuQuoin fair, August 25 through September 2.

"We are convinced we can get the best men in the state without lowering our standards in any way," Chief W. H. Morris said in commenting on the drive.

A recruiting drive was started at the Illinois State Fair here in Springfield to fill out the force. The last General Assembly, at Governor William G. Stratton's request, increased the size of the highway

police from 600 to 1100 men.

Of the 1700 applications received so far by the Merit Board, 150 men have been graduated from training schools and assigned to patrol duty with veteran state policemen.

Recruiters at the DuQuoin fair will pass out application blanks to interested persons and answer any questions about state police career opportunities.

Asiatic Influenza in Illinois
Public health officials in Illinois are continuing to watch closely for any mass outbreak of Asiatic influenza in the state. While a few sporadic cases have been investigated, to date no serious outbreaks of the disease have been reported in Illinois.

Dr. Roland R. Cross, state health director, will attend a special meet-

ing of State and Territorial Health Officers in Washington August 27 and 28 to assist in nation-wide planning for combating a probable fall epidemic of Asiatic flu.

Plans for combating the disease in Illinois are being made from recommendations of a State Advisory Committee on Asiatic influenza which met recently in Chicago. This committee is working closely with the National Committee on Influenza, the U. S. Public Health Service, and the American Medical Association.

League Bowling Will Begin Next Week at Antioch Recreation

League bowling for the 1957-58 season will start at the Antioch Recreation Lanes Tuesday evening when the Ladies' "Tenpin Topplers league" will start play at 6:45 p. m. followed by the Major Gutter Ball Girls league at 9 p. m.

The men will take over on Wednesday night, when the Business Men's league will launch its season on the early shift and a mixed league of six teams will bowl with a new men's league of six teams on the other six alleys at 9 p. m.

Preparations for these two revised leagues for the late shift are being made for Sept. 11. Organization meetings will be held between now and Sept. 4, and Manager Carl Gibson will notify the bowlers as to the time of the meetings. There are openings in the Mixed league.

There are also openings for four couples on the Sunday evening Mixed league. Because there are fewer members the bowling can be completed by 10:45 p. m. Mrs. Eleanor Klein, JU 7-9701 is the secretary.

The schedule for the coming week will be as follows:

Tuesday, Sept. 3—6:45 p. m.—Tenpin Topplers; 9 p. m.—Major Gutter Ball Girls.

Wednesday—6:45 — Wednesday Business Men's League.

Thursday—Early Thursday Business Men's League; 9 p. m.—Bi-State League.

Friday, Sept. 6—6:45 p. m.—Ladies Pinspotter league; 9 p. m.—Antioch Major league.

Sunday, Sept. 8—7 p. m.—Moose Mixed league; 8:30 Sunday Evening Mixed league.

Monday, Sept. 9—Early, Tavern League; 9 p. m.—Night Owl league.

Wednesday, Sept. 11—9 p. m.—Mixed league and Men's league.

The Thursday Afternoon Ladies league will start about Sept. 19, and the junior leagues will be organized later.

Schlunz's No-Hitter Gives Yankee Victory; League Picnic Sept. 8

Little League fans witnessed one of the best games of the season Sunday when the Yankees won from the Tigers in an 8 to 3 contest.

The game was an important one for the Yankees as it gave them a tie with the Tigers for the second round title. The Yankees used Gary Schlunz on the mound and Joe Ennis behind the plate. Schlunz pitched a beautiful game and it was his second no hit game of the season.

The Tigers accounted for their three runs in the first and fifth innings as the result of errors.

Henry Lundblad drove in the winning run in the second inning and had a perfect day at bat with a triple and two singles in his three trips to the plate.

Schlunz had a home run in the second inning and helped the Yankees pick up six runs in that frame. Jimmy Wetterberg and Don Birch each accounted for a Yankee run when they stole home. George Hogan pitched for the Tigers and was replaced by Dean Denman in the second inning. Daryl Denman caught for the Tigers.

The standings in the second round of play as of Sunday night were as follows:

Team	Sponsor	W	L	Pct.
Tigers	State Bank	6	2	.750
Yankees	Nat'l Bank	6	2	.750
Cubs	Servicecenter	4	4	.500
Giants	Antioch Lbr. Co.	2	4	.333
Sox	Dupre Heating	2	4	.333
Dodgers	Laursen & Blackman	2	6	.250

The President of the Antioch Little League announced that the League will hold its annual picnic at the Antioch Little League park at 1 p. m. Sunday, Sept. 8.

The day will include a game by the winners of the first and second round of the Little League 1957 schedules. The team members of each squad will receive trophies and the league will also award the trophy to the most valuable player on each team. Trophies will be presented to the pony league all-star players from the Antioch squad.

All minor league, little league and pony league players, and their families are invited to attend. Tables will be provided for those who want to bring their lunch, and free pop and ice cream will be served.

Horton Again Dist. V-P

William Horton of the Antioch Moose Lodge was re-elected vice president of the third district of the Moose at the annual meeting held Sunday in Woodstock. He will serve directly under the state president and will represent 10 lodges in the district which comprises Lake and McHenry counties.

The Lakes Theatre and The Antioch News invite A. G. Konitzer, Box 95, Antioch, Ill., and one to Sunday or Monday showing of "20 Million Miles to Earth" and "The 27th Day" at the Lakes Theatre.

Award of Weekend at Morraine Hotel

Art Meyer of Art's Paint Store is shown presenting a reservation for a weekend for two at the Morraine Hotel at Highland Park to Mrs. Irving Buchta, winner of a drawing held recently at his store.

SCHOOLS TO OPEN.....

(continued from page 1)

A fee of \$1.50 to cover the student in a low-cost insurance plan will be included in the textbook rental assessment. The registration fee for Juniors and Seniors will be \$6; the registration fee for Freshmen and Sophomores will be \$7. The additional cost to Freshmen and Sophomores includes a dictionary program. The rental system is a money-saving measure to the parents because the outlay of money for the rental of textbooks is not as great as the outright purchase of the books.

Seven on St. Peter Staff

There are two new members on the teaching staff at St. Peter's parochial school. Mary Agna of Chicago, and Mary Virgine of Iowa make a replacement and an addition. Mrs. Crete Greenlee will be the lay teacher again this year, making a total of seven.

Classes will start on Wednesday but will last only until noon on that day. A full schedule will take place on Thursday. The enrollment is expected to approximate 350.

Fall Round-up Rally...

(continued from page 1)

and will be announced at a later date. The rally is one of a number to be conducted in various communities in the Northwest District of the North Shore Area Council on the same date. The district embraces approximately the western half of Lake county. A registration and information booth also will be manned at the rally areas.

Tilden Batchelder, of Libertyville, chairman of the Northwest District, pointed out that there has been a drop in enrollment in Scouting in the district since December, 1956, despite the increase in the number of boys of Scouting ages.

In Cub Scouting in 1956, 1,325 boys were registered. But this had dropped to 1,230 by last June. Last December, 820 boys were registered in Boy Scout units in the district, but this figure had dropped to 701 by last June, a loss of 119 boys.

"These figures represent a challenge to us as Scout leaders and should represent a challenge to parents if they are to help provide their sons with the character building training which Scouting offers," Batchelder said. "We must re-create the interest of boys in Scouting and doing things together, and we must also create an interest on the part of parents and adults to provide the leadership and to take the training necessary to lead these boys."

Batchelder also pointed out that

national publicity in news magazines and newspapers in the past few weeks has called attention to troublesome juvenile delinquency problems in the larger metropolitan centers.

"While in our area we have had

only isolated instances of the type of boy-gang organization which leads to crime, Scouting can offer one of the best preventive measures we know. But we will need the participation of parents as well as boys," he said.
